REGENCY...where the caring comes to life

Families with frail and elderly loved ones are often faced with many emotional and trying questions. For decades, the Regency Nursing Centers have guided family members through this difficult decision-making process of deciding on a new way of life for their loved ones and have helped hundreds of seniors with a new and fulfilling lifestyle.

Regency Nursing Centers. A proven way of caring, a special way of living.

A lifestyle that includes comprehensive care and compassionate caring. A lifestyle that is reminiscent of home in an environment of elegance and comfort, where new friendships are fostered and artistic and cultural interests are encouraged. A new way of living where spirits are revitalized, individuality is preserved and self-esteem is paramount.

Elegance, style & comfort... the Regency environment.

Residents and their families alike appreciate the elegant and welcoming lobbies, beautifully appointed living, dining and entertainment areas and our warm and comfortable rooms. Exquisitely landscaped

grounds (pictured throughout this brochure) complete with fish ponds, fountains and gazebos provide the perfect park-like setting for lively conversation, social interaction or quiet contemplation.

A day at a Regency facility revolves around a full schedule of recreational events.

Understanding that an active, involved and rewarding lifestyle is vital to our residents' total well-being, our recreation staffs are much larger than a typical facility of similar size.

A comprehensive and stimulating array of programs designed to appeal to a variety of tastes, interests and levels of ability, is offered seven days a week. With an emphasis on empowering the residents, encouraging them to fulfill their potential and keeping them interested and involved; individually tailored activities and programs include lectures, trips and events that encourage socialization and participation.

A dedicated team of healthcare specialists is on duty 24 hours a day providing comprehensive care to our residents. From minimal assistance to advanced medical services, these highly dedicated professionals lend a personal touch to the delivery of healthcare services.

Quality of care is of ultimate importance.

Carefully selected for their skill, training and compassion, our professional staff — from Medical Directors to

Administrators, from Directors of Nursing to Physical Therapists — ensure that our residents receive the very best care. Many staff members have spent more than twenty years of their professional lives at a Regency facility, fostering warm and enduring relationships with our residents. Staff members respond swiftly and kindly to residents' requests, always enabling them to do as much as they can for themselves, thus providing them with a refreshing sense of self-esteem.

Committed to maintaining & encouraging a sense of family.

Family member visits are always welcomed — not just for the obvious joy they bring, but for the insights they provide. The more we understand about the past years, the better equipped we are to make the present and future full, happy and active for all of our residents.

A quality lifestyle & excellent care in an atmosphere of beauty, comfort & dignity.
